

Appendix 1a

Transcript: Corpus Christi College

OK. I want us to imagine that we've just walked past Fitzbilies cake shop and we're walking towards Corpus Christi College, and we'll stop here for a minute.

Corpus Christi was founded in 1352, and it makes it the 6th oldest college in Cambridge. What is really interesting about Corpus is that it was the only college in Cambridge founded by the townspeople. If you think about the other colleges, they were founded by kings or other rich patrons, whereas Corpus is different.

The other thing that's really interesting about Corpus is Old Court. So if we were allowed inside, and unfortunately the college is closed to visitors at the moment, we will see Old Court and it has beautiful surviving mediaeval buildings from the 1350s.

In fact, it is the oldest inhabited courtyard in the country, so this is Corpus's other claim to fame.

Appendix 3

Information Units

An information unit [IU] is the smallest unit of knowledge that can stand as a separate assertion that can be judged as true or false. IUs include, for example, the name of a person, place or concept. It could also be a fact, definition, or example and is commonly used in research on notetaking.

1 = information included in notes,	0 = information missing from notes,	-1 = Wrong information included in notes

Appendix 4. Homework

GROUP A. Peterhouse College tour

Listen to the audio twice. The first time without making notes. Jot down what you remember and listen for the second time to fill in the gaps. Remember to write in chunks, not full sentences. In class, you will use your notes to tell your friend what the tour is about.

Use this QR code to access the audio guide.

GROUP B. Vilnius University tour

Listen to the audio twice. The first time without making notes. Jot down what you remember and listen for the second time to fill in the gaps. Remember to write in chunks, not full sentences. In class, you will use your notes to tell your friend what the tour is about.
